## (CONVENIENCE TRANSLATION OF INDEPENDENT AUDITOR'S REPORT ORIGINALLY ISSUED IN TURKISH)

### INDEPENDENT AUDITOR'S REPORT

**To the General Assembly of  
EMLAK KONUT GAYRİMENKUL YATIRIM ORTAKLIĞI A.Ş.  
İstanbul**

#### **A) Report on the Audit of the Standalone Financial Statements**

##### **1) Opinion**

We have audited the standalone financial statements of Emlak Konut Gayrimenkul Yatırım Ortaklığı A.Ş. (“the Company”), which comprise the standalone statement of financial position as at 31 December 2020, and the standalone statement of comprehensive income, standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying standalone financial statements present fairly, in all material respects, the standalone financial position of the Company as at 31 December 2020, and its financial performance and its cash flows for the year then ended in accordance with Turkish Financial Reporting Standards (“TFRS”).

##### **2) Basis for Opinion**

We conducted our audit in accordance with the standards on auditing issued by Capital Markets Board and the Standards on Independent Auditing (“SIA”) which is a part of Turkish Auditing Standards published by the Public Oversight Accounting and Auditing Standards Authority (“POA”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics for Independent Auditors (“Code of Ethics”) published by the POA, together with the ethical requirements that are relevant to our audit of the standalone financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**3) Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

<b>Key Audit Matter</b>	<b>How the matter was addressed in the audit</b>
<p><b><i>Revenue recognition</i></b></p> <p>The Company realizes sales mostly in the form of turnkey and Land Subject to Revenue Sharing Agreements (“LSRSA”) projects.</p> <p>In turnkey projects, it is the Company's responsibility to maintain and complete the project and the Company recognizes revenue when performance obligation is fulfilled (independent units are transferred to the customer).</p> <p>In LSRSA projects, the contractor completes the construction and regarding the project, the Company receives advance payments from the buyer and makes payments to the contractor. Revenue in LSRSA project is recognized when performance obligation is fulfilled (the earlier of the signing of the temporary acceptance protocol with the contractor and the signing of the delivery protocol with the buyer).</p> <p>As of the balance sheet date, there may be cases where the construction has been completed, but the delivery has not been realized for turnkey projects. In LSRSA projects, there may be cases where the construction has been completed as of the balance sheet date, but the delivery has not been realized and the temporary acceptance protocol has not been signed.</p> <p>Based on the above-mentioned situations, whether the revenue is recognized in the correct period in accordance with the seasonality of sales principle has been determined as a key audit matter.</p> <p>Explanations regarding the Company's revenue accounting policies and amounts are given in Note 2.4 and Note 17.</p>	<p>We performed the following procedures in relation to the revenue recognition in turnkey and LSRSA projects:</p> <p>The design and implementation of the controls on the revenue process have been evaluated. The sales and delivery procedures of the Company have been analyzed.</p> <p>For the turnkey projects, the provisions regarding the delivery of residentials in the contracts with customers have been examined and the timing of the revenue recognition in the financial statements has been evaluated. Through substantive procedures, it has been focused on the record of receivables and advances received and the evaluation of the situations where the performance obligation is not fulfilled for the independent units sold as of the balance sheet date for the turnkey projects.</p> <p>For the LSRSA projects, provisions regarding the temporary acceptance and the delivery of residentials in the projects made with contractors and timing of the revenue recognition in the financial statements has been evaluated. Through substantive procedures, it has been focused on the record of receivables and advances received and the evaluation of the situations where the performance obligation is not fulfilled for the independent units sold as of the balance sheet date for the LSRSA projects.</p> <p>In addition, the adequacy of the disclosures presented in Note 17 Revenue and Cost of Sales has been evaluated under TFRS.</p>

#### **4) Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements**

Management is responsible for the preparation and fair presentation of the standalone financial statements in accordance with TFRS, and for such internal control as management determines is necessary to enable the preparation of standalone financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

#### **5) Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

Responsibilities of independent auditors in an independent audit are as follows:

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the standards on auditing issued by Capital Markets Board and SIA will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with the standards on auditing issued by Capital Markets Board and SIA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. (The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.)
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

## 5) Auditor's Responsibilities for the Audit of the Standalone Financial Statements (Continued)

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## B) Report on Other Legal and Regulatory Requirements

In accordance with paragraph four of the Article 398 of the Turkish Commercial Code No. 6102 ("TCC"), the auditor's report on the system and the committee of early detection of risk has been submitted to the Board of Directors of the Company on 5 March 2021.

In accordance with paragraph four of the Article 402 of TCC, nothing has come to our attention that may cause us to believe that the Company's set of accounts and standalone financial statements prepared for the period 1 January-31 December 2020 does not comply with TCC and the provisions of the Company's articles of association in relation to financial reporting.

In accordance with paragraph four of the Article 402 of TCC, the Board of Directors provided us all the required information and documentation with respect to our audit.

The engagement partner on the audit resulting in this independent auditor's report is Okan Öz.

(\*) At the Ordinary General Assembly Meeting held on 22 July 2020, the decision to distribute a cash dividend of TL 76,646 (30 April 2019: TL 122,980) from the profits of 2019 was approved by majority vote. Since the Company owns its own shares with a nominal value of TL 1 at a rate of 3.38% as of 22 July 2020, the date of the profit distribution decision, the dividend related to the shares owned by the Company is netted off from the amount of dividends to be distributed. The dividend payment was made on 27 July 2020.

### **NOTE 2 – BASIS OF PRESENTATION OF STANDALONE FINANCIAL STATEMENTS**

The principal accounting policies applied in the preparation of these standalone financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### **2.1. Basis of Presentation**

The condensed financial statements of the Company have been prepared in accordance with the communiqué numbered II-14,1 “Communiqué on the Principles of Financial Reporting In Capital Markets” (“the Communiqué”) which is published on Official Gazette numbered 28676 dated 13 June 2013. In accordance with article 5th of the CMB Accounting Standards, companies should apply Turkish Financial Reporting Standards (“TFRS”) and interpretations regarding these standards as adopted by the Public Oversight Accounting and Auditing Standards Authority (“POA”). TFRS is updated through communiqués in order to comply with the changes in the Turkish Financial Reporting Standards.

The standalone financial statements are presented in accordance with the formats specified in the “Communiqué on TFRS Taxonomy” published by the POA on 15 April 2019 and the Illustrations of Financial Statements and Application Guidance published by the CMB.

CMB has announced with its decision dated 17 March 2005 that it is not required for public companies operating in Turkey to apply inflation accounting as of 1 January 2005. The standalone financial statements of the Company have been prepared in the framework of aforementioned decision.

The Company maintains its books of account and prepares its statutory financial statements in accordance with the principals issued by CMB, the Turkish Commercial Code (“TCC”), tax legislation and the Uniform Chart of Accounts issued by the Ministry of Finance. The standalone financial statements have been prepared on the basis of historical cost, with the necessary adjustments and classifications reflected in the statutory records in accordance with TFRS.

#### **Preparation of financial statements in hyperinflationary periods**

With the decision numbered 11/367 taken on 17 March 2005, the CMB has announced that, effective from 1 January 2005, for companies operating in Turkey and preparing their financial statements in accordance with TFRS, the application of inflation accounting is no longer required. Accordingly, the Company has not applied “Financial Reporting in Hyperinflationary Economies” (“TAS 29”) in its financial statements for the accounting periods starting 1 January 2005.

#### **Functional and Presentation Currency**

Items included in the standalone financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates (“the functional currency”). The functional currency of the company is TL and the reporting currency is thousand TL.

#### 2.1. Basis of Presentation (Continued)

##### Offsetting

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to set-off the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

##### Going concern

It remains unclear how the coronavirus pandemic ("COVID-19") will affect the economy in general in the upcoming period. Despite this uncertainty, the Company's current assets exceed its current liabilities by TL 12,588,074 as of 31 December 2020. It has cash and cash equivalents amounting to TL 1,951,089 and the Company has made a net profit of TL 859,671 in the interim period ended on 31 December 2020. The Company Management believes that the Company has the necessary liquidity and the principle of going concern is appropriate. Therefore, the financial statements have been prepared on the basis of going concern.

##### Significant changes regarding the current period

The World Health Organization (WHO) has declared an international public health emergency due to the eruption of the coronavirus (COVID-19), which first appeared in Wuhan, China has described COVID-19 as a pandemic as of 11 March 2020. Covid-19 which has rapidly spread across Turkey and the world is considered to have negative economic impact in Turkey and other countries.

The necessary actions have been taken by the Group management to minimize the possible effects of COVID-19, which affects the entire world, on the Group's activities and financial status. The activities of the Company have not been ceased during the curfews. The Group evaluated the possible effects of the COVID-19 outbreak on the financial statements while preparing its consolidated financial statements dated 31 December 2020 and reviewed the estimates and assumptions used in the preparation of the consolidated financial statements. In this context, the Group has evaluated possible impairment in the values of trade receivables, inventories, property, plant and equipment and investment properties included in the consolidated financial statements dated 31 December 2020, and no significant impairment has been detected due to COVID-19. Nevertheless, with the effect of falling interest rates, real estate prices and sales have increased. The Group has increased its sales promise contract with the campaign it has initiated "Do not Delay Your Dreams Turkey".

#### 2.2 Changes in accounting policies, accounting estimates and errors

Significant changes in accounting policies and significant accounting errors are applied retrospectively and the financial statements of the previous periods are restated if the financial position, performance or cash flow effects of transactions and events are presented in a more appropriate and reliable manner.

#### 2.3. Conformity with the Portfolio Limitations

The information presented in Additional Note of this report, regarding control of conformity with the portfolio limitations, is a summary information extracted from financial statements in accordance with Article 16 of Communiqué No: II-14.1, “Principles of Financial Reporting in Capital Markets” and is prepared in accordance with the provisions of the control of portfolio limitations of Communiqué No: III-48.1, “Principles Regarding Real Estate Investment Companies”

#### 2.4 Summary of significant accounting policies

The significant accounting policies followed in the preparation of these standalone financial statements are summarized below:

##### Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, bank deposits and highly liquid investments, whose maturity at the time of purchase is less than three months and conversion risk on value at the date of sale is immaterial. The contractors’ portion of the residential unit sales from the LSRSA projects under construction and which accumulated in the bank accounts opened under the control of the Company is kept in deposits accounts in the name of the related projects under the control of the Company as stated in the agreement. However, since the Company does not have the right of disposition of the cash and cash equivalents used in the cash flow statements, except for keeping these amounts in time deposit accounts, these amounts are exempted from cash and cash equivalents in the cash flow statement (Note 3).

##### Related parties

Shareholders, key management personnel, Board of Directors, close family members, and companies which are controlled by those are regarded as related party for the purpose of preparation of these standalone financial statements. In accordance with TAS 24 – Related party standards, the description of related parties has been restricted. The Company has also transactions with State owned banks and the Republic of Turkey Prime Ministry Undersecretariat of Treasury (the “Treasury”) however quantitative information regarding Turkish State Banks and Treasury is not disclosed in accordance with this exemption. The ultimate parent and ultimate controlling party of the Company is (“TOKİ”). TOKİ is a State institution under control of Republic of Turkey Prime Ministry. The transactions made between the Company and TOKİ and its affiliates are presented in Note 25.

#### **2.4 Summary of significant accounting policies (Continued)**

##### **Foreign currency transactions**

The foreign exchange transactions during the year are translated using the prevailing exchange rates on the related transaction dates. Monetary assets and liabilities based on foreign currency are converted into functional currency at the exchange rates valid on the date of the balance sheet. The foreign currency exchange gain and losses that arise by the exchange rate change based on monetary assets and liabilities are presented in the comprehensive income statement.

##### **Financial investments**

###### **Classification**

The Company classifies its financial assets as “Financial assets at amortised cost”, “fair value through other comprehensive income”, “fair value through profit or loss”. The classification is based on the business model used by the entity for the management of financial assets and the characteristics of the contractual cash flows of the financial asset. The Company makes the classification of its financial assets on the date of purchase. Financial assets are not reclassified after initial recognition, except where the business model of the Company used is changed for the management of financial assets, in case of a change in business model, the financial assets are reclassified on the first day of the following reporting period.

###### **Recognition and Measurement**

“Financial assets measured at amortized cost” are non-derivative financial assets that are held within a business model whose objective is to collect contractual cash flows, including cash flows that include only the interest payments on principal dates and principal balances at certain dates. The Company’s financial assets that are recognized at amortized cost include “cash and cash equivalents”, “trade receivables” and “other receivables”. In the initial recognition, the related assets are measured at fair value, and, in subsequent accounting, they are measured at discounted cost using the effective interest rate method. Gains and losses resulting from the valuation of non-derivative financial assets measured at amortized cost are recognized in profit or loss.

##### Recognition and Measurement (Continued)

“Financial assets measured at FVTOCI” are non-derivative financial assets that are held within a business model whose objective is to collect contractual cash flows, including cash flows that include only the interest payments on principal dates and principal balances at certain dates. Gains or losses resulting from the related financial assets are recognized in other comprehensive income, except for impairment losses or gains and foreign exchange income or expenses. In case of sale of such assets, the valuation differences classified in other comprehensive income are classified to prior years’ profits. For investments in equity-based financial assets, the Company may irrevocably choose the method of reflecting subsequent changes in the fair value of other comprehensive income to the financial statements for the first time. In the event that such preference is made, dividends received from related investments are recognized in the income statement. “Financial assets measured at fair value through profit or loss”, are assets that are not measured at amortised cost or at fair value through other comprehensive income. Gains and losses on valuation of these financial assets are accounted for under the consolidated statement of income.

##### Derecognition of Financial Assets

The Company derecognizes financial assets when the rights related to the cash flows that occur in accordance with the contract related to the financial asset expire or when the Company transfers the ownership of all the risks and returns related to the financial asset through a trading transaction. Any rights created or retained to the financial assets transferred by the Company are recognized as a separate asset or liability.

##### Impairment

Impairment on financial assets and contractual assets is calculated using the "expected credit loss financial model"(ECL). Impairment model is applied to amortized cost financial assets and contractual assets. Loss provisions were measured on the following basis;

- 12-month ECLs: ECLs resulting from possible default events within 12 months of the reporting date.
- Lifetime ECLs: the ECLs resulting from all possible default events during the expected life of a financial instrument. Lifetime ECL measurement is applied at the reporting date when the credit risk associated with a financial asset increases significantly after the initial recognition. In all other cases where the related increase was not observed, the 12 month estimation of ECL was applied.

The Company may determine that the credit risk of the financial asset does not increase significantly if the credit risk of the financial asset has a low credit risk at the reporting date. Nevertheless, lifelong ECL measurement (simplified approach) is always applicable to trade receivables and contract assets without a significant financing element.

##### **Trade receivables and payables**

Trade receivables are recognized at amortized value of the amount will be received in the following periods from receivables recorded at original invoice value. Short-term receivables with no stated interest rate are measured at the original invoice amount unless the effect of imputing interest is significant. A “simplified approach” is applied for the impairment of trade receivables, which are accounted for at amortized cost and which do not include a significant financing component (less than one year). In cases where the trade receivables are not impaired due to certain reasons (except for the realized impairment losses), the provisions for losses are measured by an amount equal to the “life time expected loan losses”.

In the event that all or some of the amount of the receivable that is impaired is collected following the provision for impairment, the amount collected is recognized in other income from operating activities by deducting the provision for impairment.

Income/expenses from maturity differences and foreign exchange gains/loss related to transactions are recognized under “Other Income/Expenses from Operating Activities” in the statement of profit or loss. Trade payables consist of payables to suppliers for purchases of goods and services. Trade payables and other liabilities are offset from unaccrued financial expenses. Trade payables and other liabilities after unaccrued financial expenses are calculated by discounting the amounts to be paid of payables recognized at original invoice cost in the subsequent periods, using effective interest method. Short term payables without a determined interest rate stated at amortized cost if the effect of the original effective interest rate is not too significant. HAS payables are classified as short-term payables and stated at carrying value since they will be paid upon beneficiaries’ request.

##### **Financial liabilities**

Financial liabilities are classified as at FVTPL on initial recognition. Financial liabilities are recognized with their acquisition costs including transaction costs and then measured at amortized cost value using the effective interest rate method. In cases where the contractual obligations are fulfilled or canceled; The Company derecognizes the financial liability from its records (Note 5).

##### **Preparation of standalone financial statements**

The Company recognizes its investments in subsidiaries, joint ventures and associates at cost value under TAS 27 when it prepares its standalone financial statements.

###### **Employment termination benefits**

Provision for employee termination benefit defines the current value of total expected provision for the liabilities due to retirement of the employees. Under Turkish labor law, the Company is required to pay termination benefits to each employee who has completed at least one year of service and whose employment is terminated without due cause, is called up for military service, dies or who retires after completing 25 years of service (20 years for women) and reaches the retirement age (58 for women and 60 for men). Since the legislation was changed on 23 May 2002, there are certain transitional provisions relating to length of service prior to retirement. The amount payable consists of one month’s salary limited to a maximum of full TL 7,117.17 as of 31 December 2020 (31 December 2019: full TL 6,379.86).

The provision for the present value of the defined benefit obligation is calculated by using the projected liability method. All actuarial profits and losses are recognized in the statement of comprehensive income. TFRS requires actuarial valuation estimates to be developed to estimate the obligation under defined benefit plans. In the individual financial statements, the Company calculates a liability on the basis of its experience in the previous years, based on its experience in the past, and on the beneficiaries of the severance payment as of the date of termination. This provision is calculated by estimating the present value of the future probable obligation of the employees.

The principal actuarial assumption is that the maximum liability will increase in line with inflation. Thus the effective discount rate applied represents the expected real interest rate after adjusting for the effects of future inflation. As the maximum liability amount is revised semi-annually by the authorities, the maximum amount of full TL 7,638.96 which is effective from 1 January 2021 has been taken into consideration when calculating the liability (1 January 2020: full TL 6,730.15) (Note 13).

###### **Provisions, contingent assets and liabilities**

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Provisions are not recognised for future operating losses.

Contingent assets or contingent obligations that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company are not included in standalone financial statements and are treated as contingent assets or liabilities.

###### Land and residential unit inventories

The Company has four types of inventories in its standalone financial statements (Note 8). These are;

###### 1. *Vacant land and plots*

Vacant land and plots are carried at lower of cost or net realizable value and represent vacant land and plot of the Company with no ongoing or planned construction project on them. Such land and plots are classified as inventories because the Company uses such land and plots the development of residual and commercial units, as explained below, which are also classified as inventories.

###### 2. *Turnkey projects*

Turnkey projects are valued at lower of cost or net realizable value. Turnkey projects costs consist of construction costs of the semi-finished residential units together with the cost of land (progress payments to contractor) on which these projects are developed. Upon completion of residential units costs including the cost of land are classified under completed residential unit inventories.

###### 3. *Land Subject to Revenue Sharing Agreements (“LSRSA”)*

The Company enters into revenue sharing agreements with construction entities to maximize sales proceeds from the sale of its vacant land and plots. Such land and plot sold subject to revenue share agreements to construction entities are accounted at cost until sale is recognized.

###### 4. *Completed residential and commercial unit inventories*

Completed residential and commercial units comprise units build in Turnkey projects and units transferred to the Company by the contractor in order to meet minimum revenue stated in the agreements when the projects can not reach the expected revenue as stated in the agreements signed within the framework of LSRSA.

Completed residential and commercial unit inventories are valued at lower of cost or net realizable value.

The Company takes into consideration independent expert valuation reports for inventory (land, finished and semi-finished residential and commercial units) separately at least once a year and uses these reports to assess impairment if any. Impairments are recognized under other expenses from operations in the statement of profit or loss and comprehensive income in the period during which they are incurred. Impairments released are recognized under other income from operations when the relevant land or residential are sold.

##### Property, plant and equipment

Property and equipment are carried at cost less accumulated depreciation and provision for impairment, if any. The cost value also includes costs that can be directly attributed to the asset to perform its operation as planned.

Depreciation is calculated over of the cost of property and equipment using the straight-line method based on expected useful lives (Note 10).

The expected useful lives for property, plant and equipment are stated below:

	<b>Years</b>
Buildings	50
Motor vehicles	5
Furniture and fixtures	4-5

The cost of major subsequent expenditures is included in the carrying amount of the asset when it is probable that future economic benefits in excess of the originally assessed of performance of the existing asset will flow to the Company and major subsequent expenditures are depreciated over the remaining useful life of the related assets. All other expenses other than these items are recognized as expense.

Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down to its recoverable amount and the provision for impairment is charged to the income statement.

Gains and losses on the disposal of property and equipment are determined by comparing the carrying of the property and equipment with the collected amount and then included in the related income and expense accounts, as appropriate.

##### Intangible assets

Intangible assets comprise of licenses and computer software. They are initially recognized at acquisition cost and amortized on a straight-line basis over 5 years their estimated useful lives (Note 11).

Whenever there is an indication that the intangible is impaired, the carrying amount of the intangible asset is reduced to its recoverable amount.

##### Investment properties

Investment properties are defined as land and buildings held to earn rental income or capital appreciation or both, rather than for use in the production of goods or services or for administrative purposes; or sale in the ordinary course of business. The Company uses cost model for all investment properties. Investment properties are presented in the standalone financial statements at cost less accumulated depreciation and less impairment, if any (Note 9).

##### Impairment of assets

The Company reviews all assets subject to amortization at each balance sheet date in order to see if there is a sign of impairment on the stated asset. If there is such a sign, carrying amount of the stated asset is estimated. Impairment exists if the carrying value of an asset is greater than its net realizable value. Net recoverable value is the higher of the net sales value or value in use. Value in use is the present value of cash flows generated from the use of the asset and the disposal of the asset after its useful life.

Impairment losses are recorded in the comprehensive income statement. Impairment loss for an asset is reversed, if an increase in recoverable amount is related to a subsequent event following the booking of impairment by not exceeding the amount reserved for impairment. The Company takes the valuation reports for each property separately into consideration over investment property at least once a year to compare carrying value of assets with its net recoverable value and calculate the impairment if any.

##### Segment reporting

Operating segments shall be reported in a manner consistent with the internal reporting provided to the chief operating decision-makers. However, since the Company operates in only one geographical segment (Turkey) and all of its operations are concentrated in one industrial department (development of residential projects on its vacant land and plot inventories), the Company does not prepare a segment report.

Chief operating decision maker of the Company is its Board of Directors. Board of Directors uses quarterly standalone financial statements of the Company prepared in accordance with the TFRS when making decisions.

###### Revenue recognition

The Company recognizes revenue in the financial statements within the 5-step model below in accordance with TFRS 15 “Revenue from Contracts with Customers” standard that is effective as of 1 January 2018.

- (a) Identify the contract(s) with a customer
- (b) Identify the performance obligations in the contract
- (c) Determine the transaction price
- (d) Allocate the transaction price to the performance obligations in the contract
- (e) Recognize revenue when the entity satisfies a performance obligation

Revenue is comprises of sale of vacant land and plots, sale of residential units produced by turnkey projects and sale of land and plots by way of LSRSA.

###### 1. *Sale of vacant land and plots*

Revenue is recognized when the unprojectized lands are transferred to the customer according to the contract and performance obligations are fulfilled. Unprojectized land are carried over when the customer takes control of the land.

###### 2. *Sale of residential units produced by Turnkey projects*

Revenue is recognized when the independent units are transferred to according to the contract and performance obligations are fulfilled. Residential units are carried over when the customer takes control of the units.

###### 3. *Sale of land and plots by way of LSRSA*

The Company recognizes the revenue for the sale of land by way of LSRSA when performance obligations (the one before the signing of the temporary acceptance protocol with the contractor or the signing of the delivery protocol with the buyer) are fulfilled. In cases where the temporary acceptance protocol or delivery protocol with the buyer is not signed, the Company follows-up its revenue share in the deferred revenue (Note 15) and the share of the construction entity as a liability to contractors (Note 6). The Company’s share in the Total Sales Revenue (“TSR”) is recorded as revenue from sale of land and the related cost of land is recognised as cost of land sold in the comprehensive income statement (Note 17).

##### **Interest income and expense**

Interest income and expense are recognised on an accrual basis using the internal rate of return method. Interest income comprises mostly interest income from time deposits and interest income from credit sales of residences (Note 20-22).

##### **Paid-in capital**

Ordinary shares are classified in equity. Costs related to the issue of new shares are recognized in equity less the amounts discounted by tax effect.

##### **Share premium**

Share premiums represent the difference between the fair value of the shares held by the Company at a price higher than the nominal value of the Company or the difference between the fair value and the fair value of the shares of the Company that the Company has acquired. Expenses that are directly attributable to the secondary public offering, in which the shares are re-issued and provide cash inflows to the Company, are deducted from the premiums on issue of share sales.

##### **Earnings per share**

Earnings per share are determined by dividing net comprehensive income by the weighted average number of shares that have been outstanding during the period concerned.

In Turkey, companies can increase their share capital by making a pro rata distribution of their shares “bonus shares” to existing shareholders funded from retained earnings. For the purpose of earnings per share computations, such “bonus share” issuances are regarded as issued shares. Accordingly, the weighted average number of shares used in earnings per share computations are determined by taking into consideration the retroactive effect of aforementioned share distributions. In case of increase in issued shares after balance sheet date but before the date that standalone financial statement is prepared due to the bonus share distribution, earning per share calculation is performed taking account of total new share amount.

##### **Payments for Housing Acquisition Support (“HAS”)**

HAS was a compulsory of saving fund, established by the state to be used by fund participants in the future for acquisition of affordable housing between 1987 and 1995. This system aimed to collect the deducted amounts in a single account, apply interest to the savings and provide the employees with these contributions at the time they wish to acquire a house/residential unit in the future. However, this project was suspended in 1996 and as per decree law No. 588, issued in 1999, the decision was taken to terminate the HAS accounts. With this decree law, real estate corresponding to the monetary value of the HAS deductions which were held by Emlak Bankası was transferred to the Company.

#### **2.4 Summary of significant accounting policies (Continued)**

##### **Payments for Housing Acquisition Support (“HAS”) (Continued)**

Within the scope of Law No. 5664, dated 30 May 2007, and the regulation issued on 14 August 2007, the decision was taken to pay back these savings, which were still held as capital in kind in the accounts of the Company, to the HAS beneficiaries. Accordingly, the shares of HAS beneficiaries were removed from the Company’s equity capital and comprehensive income for the current period based on the ratios specified in the law and recognized as debts to HAS beneficiaries under other payables. The amount payable was determined as the share in the net asset value of the Company at 28 February 2008. The payable amount does not bear any interest or does not change with subsequent changes in the net asset value in subsequent periods and is payable on demand any date after 28 February 2008. The Company has borrowed funds from the Treasury to make such payments.

In addition, the Treasury has an interest liability against HAS beneficiaries calculated before 1999. In accordance with an agreement signed in 2008, the Company undertook this liability on behalf of the Treasury and recorded as payable be paid together with the Company's own payables. However, Company resources are not used for this extra liability. Since all payments are made on behalf of the Treasury, they are instantly collected by cashing the government bonds given for these payments from the Treasury to the Company beforehand.

##### **Dividend distribution**

Dividends payable are recognized as an appropriation of the profit in the period in which they are declared and reflected to Company’s financial statements as liability.

##### **Statement of cash flows**

Cash flows during the period are classified and reported by operating, investing and financing activities in the cash flow statements.

Cash flows from operating activities represent the cash flows of the Company generated from its main activities. Cash flows related to investing activities represent the cash flows that are used in or provided from the investing activities of the Company (fixed investments and financial investments).

Cash flows arising from financing activities represent the cash proceeds from the financing activities of the Company and the repayments of these funds.

Cash and cash equivalents comprise cash on hand and bank deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash with maturities equal or less than three months.

##### **Events after the reporting period**

Events after the reporting period cover any events that arise between the reporting date and the balance sheet date, even if they occurred after any declaration of the net profit for the period or specific financial information publicly disclosed. The Company adjusts its standalone financial statements if such events arise which require an adjustment to the standalone financial statements (Note 29).

### NOTE 2 – BASIS OF PRESENTATION OF STANDALONE FINANCIAL STATEMENTS (Continued)

#### 2.5 Critical Accounting Judgements, Assumptions and Estimates

The preparation of standalone financial statements requires the use of assumptions and estimates that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the standalone financial statements and reported amounts of revenues expenses which are reported throughout the period. Even though these assumptions and estimates rely on the best estimates of the Company management both the actual results may differ and not material for these standalone financial statements.

##### *Net realizable value of lands and residential inventories*

When the estimated net realizable value of land and commercial units is less than the cost value, the allowance is recognized to reduce the value of inventories to their estimated net realizable value. As of 31 December 2020, valuation reports prepared by Atak Gayrimenkul Değerleme A.Ş. ve Reel Gayrimenkul Değerleme A.Ş. have been taken into consideration when determining the net realizable value of lands and residential inventories.

As of 31 December 2020, the valuation reports prepared by Atak Gayrimenkul Değerleme A.Ş. Reel Gayrimenkul Değerleme A.Ş. GEDAŞ Gayrimenkul Değerleme A.Ş. and Yetkin Gayrimenkul Değerleme ve Danışmanlık A.Ş. have taken into consideration in the valuation of assets classified as “Inventories” and in the calculation on impairment, if any.

##### *Provisions for lawsuits*

As of 31 December 2020, a total of TL 262,945 lawsuits have been filed against the Company. For those lawsuits in which there is a high probability of potential outflow of potential resources from these cases, a provision amounting to TL 125,957 has been provided by taking the opinion of the lawyers (Note 12). According to the legal judgment of the lawyers, there is no risk of any outflow of resources from the company.

#### 2.6 New and Revised Turkish Financial Reporting Standards (Continued)

##### a) Amendments and interpretations mandatorily effective as of 2020 (Continued)

##### **Amendments to TFRS 3 *Definition of a Business***

The definition of “business” is important because the accounting for the acquisition of an activity and asset group varies depending on whether the group is a business or only an asset group. The definition of “business” in TFRS 3 Business Combinations standard has been amended. With this change:

- By confirming that a business should include inputs and a process; clarified that the process should be essential and that the process and inputs should contribute significantly to the creation of outputs.
- The definition of a business has been simplified by focusing on the definition of goods and services offered to customers and other income from ordinary activities.
- An optional test has been added to facilitate the process of deciding whether a company acquired a business or a group of assets.

##### **Amendments to TAS 1 and TAS 8 *Definition of Material***

The amendments in Definition of Material (Amendments to TAS 1 and TAS 8) clarify the definition of ‘material’ and align the definition used in the Conceptual Framework and the standards.

##### **Amendments to TFRS 9, TAS 39 and TFRS 7 *Interest Rate Benchmark Reform***

The amendments clarify that entities would continue to apply certain hedge accounting requirements assuming that the interest rate benchmark on which the hedged cash flows and cash flows from the hedging instrument are based will not be altered as a result of interest rate benchmark reform.

##### **Amendments to TFRS 16 *Covid-19 Related Rent Concessions***

The changes in COVID-19 Related Rent Concessions (Amendment to TFRS 16) brings practical expedient which allows a lessee to elect not to assess whether a COVID-19-related rent concession is a lease modification. The practical expedient applies only to rent concessions occurring as a direct consequence of COVID-19 and only if all of the following conditions are met:

- The change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- Any reduction in lease payments affects only payments originally due on or before 30 June 2021 and
- There are no substantive changes to other terms and conditions of the lease.

##### **Amendments to TFRS 16 Covid-19 Related Rent Concessions (Continued)**

Concessions Recognized in Lease Payments Regarding COVID-19-Amendments Related to TFRS 16 will be applied by the lessees in the annual accounting periods starting from 1 June 2020 or after, however early application is permitted.

##### **Amendments to References to the Conceptual Framework in TFRS Standards**

The references to the Conceptual Framework revised the related paragraphs in TFRS 2, TFRS 3, TFRS 6, TFRS 14, TAS 1, TAS 8, TAS 34, TAS 37, TAS 38, TFRS Interpretation 12, TFRS Interpretation 19, TFRS Interpretation 20, TFRS Interpretation 22, and TAS Interpretation 32. The amendments, where they actually are updates, are effective for annual periods beginning on or after 1 January 2020, with early application permitted.

As of 31 December 2020, the relevant standard changes do not have a significant effect on the financial statements of the Company.

##### b) New and revised TFRSs in issue but not yet effective

The Company has not yet adopted the following standards and amendments and interpretations to the existing standards:

TFRS 17	<i>Insurance Contracts</i>
Amendments to TAS 1	<i>Classification of Liabilities as Current or Non-Current</i>

#### **NOTE 2 – BASIS OF PRESENTATION OF STANDALONE FINANCIAL STATEMENTS (Continued)**

##### **2.6 Yeni and Revised Turkish Financial Reporting Standards (Continued)**

###### **b) New and revised TFRSs in issue but not yet effective (Continued)**

###### ***TFRS 17 Insurance Contracts***

TFRS 17 requires insurance liabilities to be measured at a current coverage value and provides a more streamlined measurement and presentation approach for all insurance contracts. These requirements are designed to achieve consistent, principle-based accounting in insurance contracts. TFRS 17 will replace TFRS 4 Insurance Contracts as of 1 January 2023.

###### ***Amendments to TAS 1 Classification of Liabilities as Current or Non-Current***

The amendments aim to promote consistency in applying the requirements by helping companies determine whether, in the statement of financial position, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current.

Amendments to TAS 1 are deferred and are effective for annual reporting periods beginning on or after 1 January 2023 and earlier application is permitted.

###### ***Amendments to TFRS 3 Reference to the Conceptual Framework***

The amendments update an outdated reference to the Conceptual Framework in TFRS 3 without significantly changing the requirements in the standard.

The amendments are effective for annual periods beginning on or after 1 January 2022. Early application is permitted if an entity also applies all other updated references (published together with the updated Conceptual Framework) at the same time or earlier.

###### ***Amendments to TAS 16 Property, Plant and Equipment - Proceeds before Intended Use***

The amendments prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the cost of producing those items, in profit or loss.

The amendments are effective for annual periods beginning on or after 1 January 2022. Early application is permitted.

###### b) New and revised TFRSs in issue but not yet effective (Continued)

###### **Amendments to TAS 37 *Onerous Contracts – Cost of Fulfilling a Contract***

The amendments specify that the ‘cost of fulfilling’ a contract comprises the ‘costs that relate directly to the contract’. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract or an allocation of other costs that relate directly to fulfilling contracts.

The amendments are effective for annual periods beginning on or after 1 January 2022. Early application is permitted.

###### **Annual Improvements to TFRS Standards 2018-2020**

###### *Amendments to TFRS 1 First time adoption of International Financial Reporting Standards*

The amendment permits a subsidiary that applies paragraph D16(a) of TFRS 1 to measure cumulative translation differences using the amounts reported by its parent, based on the parent’s date of transition to TFRSs.

###### *Amendments to TFRS 9 Financial Instruments*

The amendment clarifies which fees an entity includes in assessing whether to derecognize a financial liability. An entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other’s behalf.

###### *Amendments to TAS 41 Agriculture*

The amendment removes the requirement in paragraph 22 of TAS 41 for entities to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique. This will ensure consistency with the requirements in TFRS 13.

The amendments to TFRS 1, TFRS 9, and TAS 41 are all effective for annual periods beginning on or after 1 January 2022. Early application is permitted.

##### **Amendments to TFRS 9, TAS 39, TFRS 7, TFRS 4 and TFRS 16 *Interest Rate Benchmark Reform — Phase 2***

The amendments in Interest Rate Benchmark Reform — Phase 2 (Amendments to TFRS 9, TAS 39, TFRS 7, TFRS 4 and TFRS 16) introduce a practical expedient for modifications required by the reform, clarify that hedge accounting is not discontinued solely because of the IBOR reform, and introduce disclosures that allow users to understand the nature and extent of risks arising from the IBOR reform to which the entity is exposed to and how the entity manages those risks as well as the entity’s progress in transitioning from IBORs to alternative benchmark rates, and how the entity is managing this transition.

The amendments to TFRS 9, TAS 39, TFRS 7, TFRS 4 and TFRS 16 are all effective for annual periods beginning on or after 1 January 2021. Early application is permitted.

(\*) The Company purchased a lease certificate with a nominal amount of TL 200,000, a maturity date of 16 February 2021 and an interest rate of 8% on 19 August 2020 and another one with a nominal amount of TL 100,000, a maturity date of 3 February 2021 and an interest rate of 8.25% on 6 August 2020. Both of the relevant lease certificates was purchased from Türkiye Emlak Katılım Bankası A.Ş. which is one of the related parties of the Company (Note: 25).

(\*\*) The Company keeps the credit amounts used by customers as blocked deposits at the bank in order to provide low interest rate financing to its customers who want to purchase residentials from the projects that the Company has developed. The relevant amounts are ready for the use of the company at the specified terms. While the contractor portion of blocked deposits in the bank accounts which opened in the name of the related project under the control of the Company and which have maturities more than 3 months is TL 184 (31 December 2019: TL 8,331), the Company portion is TL 88 (31 December 2019: TL 3,985).

(\*\*\*) Under the Lar No. 5664, the Company received special issued Government Debt Securities amounting to TL 429,617 on behalf of Republic of Turkey Ministry Undersecretariat of Treasury (“Treasury”) for the payments to Housing Acquisition Support (“HAS”) beneficiaries in 2010. As HAS beneficiaries are determined, the Company amortizes a certain part of GDS early and transfers to the Company accounts for payment (Note 7). Since GDS received in 2010 were issued by Treasury, and since they are interest-free and not subject to trading in the secondary market, their fair values are their nominal values.

#### 12.1 Continuing Lawsuits and Provisions

**12.1.1** The LRSRA Project Agreement dated 21 December 2005 regarding 750 units in İzmir Mavisehir Upper North Area 2. Phase was abolished on 21 December 2009 since the contractor did not meet the requirements of the provisions in the agreement. Following the cancellation of the agreement, the project was transferred to the Company and the remaining part of the project was completed by another construction company which was assigned in accordance with Public Tender Law. The related units have been completed and are sold by the Company as in Turnkey projects.

The contractor filed a lawsuit against the Company claiming that the completion percentage of the project was significantly high and that the agreement between the parties was based on construction right in return for flat. İzmir Karsiyaka Commercial Court of First Instance issued an expert report and determine that the level of work was at around 83%, and that the legal relationship of the parties were not related to construction right in return of the flat. The Company and the contractor filed counter lawsuits in the following period and an additional report was decided to be issued. The additional report is about the final receivables and payables of the parties considering all the claims. As a result of the examination of the additional report at the hearing on 11 June 2014, the second expert committee was examined however, since the expert report was not received, the date of the case was not finalized. In addition, the file was transferred to the delegation, as the Commercial Courts turned into Delegation Judges.

In the expert report dated 19 January 2016, it has been determined that the related cancellation is unfair, and alternative calculations has been realized over the possibility of whether the cancellation is right and over the effects on forward and backward. The expert report has been contested and it has been requested from the court that the expert report is declared "null and void" and that to receive a report that contains the objections of parties by creating a new comitee. The Company filed an extra lawsuit of TL 34,100 on 7 July 2011, requesting the collection, without prejudice to surplus rights.

According to the various expert reports submitted to the file, the complainant increased the lawsuit cost by TL 65,596 with the claim that the lawsuit was terminated unfairly by Emlak Konut during the prosecution process of the compensation lawsuit filed by the contractor for the detection of invalidity of termination on condition that the surplus rights are reserved. The Company made provision amounting to TL 92,233 as of 31 December 2020.

#### NOTE 12 – PROVISIONS, CONTINGENT ASSETS AND LIABILITIES (Continued)

##### 12.1 Continuing Lawsuits and Provisions (Continued)

**12.1.2** The filed by the contractor firm is action of debt, deed cancellation and registration case. The decision of the contractor's contract was terminated unfairly, passing through degrees. Lawsuits filed by the company and amounting to TL 7,141 have been partially accepted and the decision was appealed by the parties, the trial is ongoing at the Istanbul 16th Commercial Court of First Instance. As of 31 December 2020 a provision amounting to TL 7,601 has been made.

**12.1.3** Within the scope of Revenue Sharing in Return for Riva Land Sale Tender for immovables parcel numbered 3201, 3202, 3203 located in Istanbul Province, Beykoz/Riva District as per the Article 14 of Bidding Specification of the aforementioned tender, bid bonds have been submitted to the client company by the Joint Venture, in the second session of the tender held on 15 June 2017, it was decided to leave the tender under the responsibility of the Joint Venture, which gave the most economically advantageous bid however, companies that have applied to the client company and invited for signature were requested to revise the terms and criteria of the tender, with the justification that the Planned Areas Type Zoning Regulation by the Ministry of Environment and Urbanization published on Official Gazette No. 30113 dated 3 July 2017 contains regulations that cause a significant reduction in the construction area subject to the tender, with the entry into force of the provisions of the said Regulation, the revision requests of the plaintiff companies were rejected on the grounds that there would be no change in the construction field based on the precedent and the Company gave a deadline until 15 August 2017 for the signing of the contract, as the client company did not come to sign the contract at the end of the period, the bid bonds submitted by the plaintiff companies within the scope of the Revenue Sharing in Return for Riva Land Sale Tender were registered as revenue and the tender was awarded to the non-litigated contractor who submitted the second most appropriate bid for the subject matter and there are pecuniary and non-pecuniary damages lawsuits filed on the grounds that the claimant's revision requests regarding the conditions and criteria of the aforementioned tender were rejected and that the recognition of the letters of guarantee as revenue was unfair. Provision amounting to TL 10,306 has been made as of 31 December 2020.

##### 12.2 Contingent Liabilities of Emlak Konut GYO

In the financial statements prepared as of 31 December 2020, the ongoing litigation liabilities were evaluated in the following matters. According to the opinion of the Company Management and its lawyers, no provision has been made in the financial statements prepared as of 31 December 2020 on the grounds that it is not probable that the outflow of resources with economic benefits will be realized in cases filed against the Company in order to fulfill its obligation.

**12.2.1** Concerning the İzmir Mavisehir Upper North Area 2. Phase LSRSA project, a lawsuit was filed based on the assignments given by the contractor in favor of the complainant. The case is proceeding. According to the opinion of the company lawyer, no liability is expected to born as a result of the related lawsuit.

**12.2.2** İstanbul Ümraniye 1.Phase is the action of debt filed by the contractor with the claim that TL 34,164 remaining from the transfer of the receivable amounting to TL 46,000 which derived or will be derived before the contractor of LSRA to the bank, has not been paid unfairly to him by the bank. At the same time, the complainant requested to put as much mortgage as the amount of the lawsuit on a part of the immovable within the scope of the project in order to guarantee the receivable subject to the case. The case is proceeding. According to the opinion of the company lawyer, no liability is expected to born as a result of the related lawsuit.

### NOTE 13- EMPLOYEE BENEFITS

	31 December 2020	31 December 2019
<b>Short-term provisions</b>		
Unused vacation provision	13,090	9,475
	<b>13,090</b>	<b>9,475</b>
<b>Long-term provisions</b>		
Provision for employment termination benefit	10,855	10,002
	<b>10,855</b>	<b>10,002</b>

TAS 19 foresees that actuarial valuation method should be in use in order to estimate the certain liabilities for defined benefit obligations of the Company. Accordingly, in the calculation of these liabilities, the following actuarial assumptions are used:

	31 December 2020	31 December 2019
Discount Rate (%)	4.30	4.23
Turnover rate to estimate probability of retirement (%)	0.7	0.65

The principal assumption is that the determined value for every working year increases proportional to inflation. Using this assumption, the existing discount ratio shows the real ratio, unaffected by inflation.

If the discount rate would have been 1% lower, provision for employee termination benefits would increase by TL 1,269.

If the anticipated turnover rate would have been 1% higher while all other variables were held constant, provision for employee termination benefits would increase by TL 449.

Movement of the provision for employment termination benefits in the current years is as follows:

	2020	2019
<b>Balance at 1 January</b>	<b>10,002</b>	<b>7,677</b>
Service cost	1,944	1,944
Interest cost	391	387
Payment within the period	(1,482)	(6)
<b>Closing balance at 31 December</b>	<b>10,855</b>	<b>10,002</b>

<b>Total paid-in capital</b>	<b>100</b>	<b>3,800,000</b>	<b>100</b>	<b>3,800,000</b>

The legal reserves consist of first and second reserves, appropriated in accordance with the Turkish Commercial Code ("TCC"). The TCC stipulates that the first legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve balance reaches 20% of the Company's paid-in share capital. The second legal reserve is appropriated at the rate of 10% per annum of all cash distributions in excess of 5% of the paid-in share capital. Under the TCC, the legal reserves can only be used to offset losses and are not available for any other usage unless they exceed 50% of paid-in share capital.

In accordance with the Communiqué Serial: II, No: 14,1 which became effective as of 13 June 2013 and according to the CMB's announcements clarifying the said Communiqué, "Share Capital", "Restricted Reserves Appropriated from Profit" and "Share Premiums" need to be recognized over the amounts contained in the legal records. The valuation differences (such as inflation adjustment differences) shall be disclosed as follows:

- If the difference is arising from the valuation of "Paid-in Capital" and not yet been transferred to capital should be classified under the "Inflation Adjustment to Share Capital";
- If the difference is arising from valuation of "Restricted Reserves Appropriated from Profit" and "Share Premium" and the amount has not been subject to dividend distribution or capital increase, it shall be classified under "Retained Earnings". Other equity items should be revaluated in accordance with the CMB standards.

There is no any use of the adjustment to share capital except adding it to the share capital.

On 22 July 2020, the General Assembly decided to distribute dividends amounting to TL 76,646. This dividend amounting to TL 2,800 is related to repurchased shares and offsetted under equity.

On 20 March 2020, The Company repurchased 10,500,000 numbers of shares with nominal value between full TL 1.11 and full TL 1.12 (full TL) and with the transaction cost amounting to thousand TL 11,751. The ratio of total shares acquired as a result of the purchase transactions to total number was 3.65%.

#### NOTE 23 – TAX ASSETS AND LIABILITIES

“Corporate Tax Law” No. 5520 (“New Tax Law”) was taken into effect after being published in the Official Gazette No. 26205 dated 21 June 2006. Many clauses of the New Tax Law are effective from 1 January 2006. According to Tax Law, No. 5520, the corporate tax rate in Turkey is payable at the rate of 22% as of 1 January 2006. This rate is applied to accounting income modified for certain exemptions (affiliation privilege) and deductions and additions for certain non-tax deductible expenses and allowances for tax purposes. No further tax is payable unless the profit is distributed.

Dividends paid to non-resident corporations, which have a place of business in Turkey or to resident corporations, are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15%. An increase in capital via issuing bonus shares is not considered as profit distribution and no withholding tax incurs in such a case.

The company is exempt from Corporate Tax in accordance with the paragraph 4-d of Article 8 of the Corporate Tax Law. According to the paragraph 6-a of Article 94 of the Income Tax Law the earnings of real estate investment companies are subject to withholding and withholding tax rate is determined as "0" according to the Council of Ministers Decision, No: 93/5148.

#### NOTE 24 – EARNINGS PER SHARE

In Turkey, companies can increase their share capital by making a pro rata distribution of shares “bonus shares” to existing shareholders from retained earnings. The issue of such shares is treated as the issuance of ordinary shares in the calculation of earnings per share. Accordingly, the weighted average number of shares used in these calculations is determined by taking into consideration the retroactive effects of these share distributions. Earnings per share is calculated by considering the total number of new shares when there is an increase in issued shares because of distribution of bonus shares after the balance sheet date but before the preparation of financial statements.

The earnings per share stated in income statement are calculated by dividing net income for the period by the weighted average number of the Company’s shares for the period.

The Company can withdraw the issued shares. The weighted average number of shares taken back changes the calculation of earnings per share in line with the number of shares.

### NOTE 26 - NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

The Company’s activities expose it to a variety of financial risks, including the effects of changes in debt and equity market prices, foreign currency exchange rates and interest rates. The Company’s management focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Company.

#### *Liquidity risk*

Liquidity risk is the inability of the Company to match the net funding requirements with sufficient liquidity.

The Company management monitors the undiscounted estimated cash flows arising from the financial liabilities and trade payables of the Company with special reporting methods and analysis.

The Company meets its liquidity needs arising from HAS payments with the funding guarantee it receives from the Treasury and the special issue Government Debt Securities.

The Company covers the payments of other trade and financial payables with cash and cash equivalents and cash generated from sales. In addition, it aims to provide flexibility in funding by continuing its credit facilities. Although the amounts stated in the table are non-discounted amounts depending on the contract, the Company manages the structural liquidity risk based on the expected non-discounted cash flows.

The maturity distribution of financial liabilities of the Company as of 31 December 2020 and 2019 is as follows:

31 December 2020	Carrying value	Contractual cash flows	Up to 3 months	3 months to 1 year	1 year- to 5 years
<b>Short-term financial liabilities (Non-derivative):</b>					
Financial liabilities	2,078,219	2,356,344	1,051,013	1,305,331	-

**Interest rate risk**

The Company is vulnerable to interest rate arising from the change of interest rates due to its interest-earning asset and interest-paid liabilities. This risk is managed through on-balance sheet method by balancing the amount and maturity of interest rate sensitive assets and liabilities. In this context, great importance is attached to the fact that not only the due dates of receivables and payables, but also the periods of interest renewal are similar.

Average effective annual interest rates of balance sheet items as of 31 December 2020 and 2019 are as follows:

	31 December 2020 (%)	31 December 2019 (%)
<b>Current assets</b>		
Cash and cash equivalents	17.62%	9.16%
Trade receivables	13.76%	11.92%
<b>Current liabilities</b>		
Financial liabilities	10.86%	14.50%
<b>Non-current liabilities</b>		
Financial liabilities	10.57%	17.71%

The Company’s financial instruments that are sensitive to interest rates are as follows:

	31 December 2020	31 December 2019
<b>Financial instruments with fixed interest rate</b>		
Time deposits	1,877,923	337,873
Financial liabilities	5,009,313	4,763,197

If the interest denominated in TL had been 100 base point lower/higher while all other variables were held constant, the profit before tax would increase / decrease by TL 0 as of 31 December 2020 (31 December 2019: TL 0 ).

##### *Credit risk disclosures*

The Company is subject to credit risk arising from trade receivables related to forward sales, other receivables and deposits at banks.

The Company manages credit risk of bank deposits by working mainly with state banks established in Turkey and having long standing relations with the Company. Majority of bank deposits in this regard are with the state owned retail banks.

Credit risk of receivables from third parties is managed by securing receivables with collaterals covering receivables at the highest possible proportion. Methods used are as follows:

- Bank guarantees (letter of guarantee, etc.),
- Mortgage on real estate,
- Retain the legal title to the goods solely to protect the collectability of the amount due

In credit risk control, the credit quality of each customer is assessed; taking into account its financial position, past experience and other factors, individual risk limits are set in accordance and the utilisation of credit limits is regularly monitored.

### NOTE 27 – FINANCIAL INSTRUMENTS (Continued)

#### *Fair value of financial instruments*

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and is best evidenced by a quoted market price, if one exists.

The Company has determined the estimated fair values of financial instruments using current market information and appropriate valuation methods. However, evaluating market information and estimating fair values requires interpretation and judgment. As a result, the estimations presented here cannot be an indication of the amounts that the Company can obtain in a current market transaction.

The following methods and assumptions are used to estimate the fair values of financial instruments that are practically possible to estimate fair values:

#### *Financial assets:*

The fair values of cash and due from banks are considered to approximate their respective carrying values due to their short-term nature.

The carrying values of trade and other receivables are expected to reflect the fair value along with the relevant impairment provisions.

It is estimated that the fair values of the foreign currency balances converted with the exchange rates at the end of the period are close to their carrying values.

Special issue Government Debt Securities issued by the Treasury and given to the Company for the payments to be made to the HAS beneficiaries are not subject to trading in the secondary market and do not contain interest. They are recognized with their carrying value which is their fair value by the Company and they can be amortised at carrying value by the Company against the Treasury.

Bonds are kept at their fair values in the financial statements of the Company. Fair values of the bonds are calculated quarterly using effective interest rates.

#### *Financial liabilities:*

The Company’s borrowing from the Treasury in order to finance HAS payments are calculated at each interest payment period based on the weighted average compound interest rate of the Government Debt Securities. Therefore, the carrying value of this financial borrowing of the Company approximate their fair value.

Short-term trade payables and other liabilities with no stated interest rate are measured at original invoice amount. Since, these trade payables and other liabilities will be paid when requested they are considered as short-term.

It is anticipated that there is no significant difference between the cost values and fair values of the borrowings with floating interest rates including its accruals for the regarding period.

### NOTE 27 – FINANCIAL INSTRUMENTS (Continued)

#### Fair Values of Financial Instruments

The fair values of financial assets and financial liabilities are determined as follows:

- Level 1: Financial assets and financial liabilities with standard terms and conditions are valued with quoted market prices which are determined on active liquid markets.
- Level 2: Financial assets and financial liabilities are valued by directly or indirectly observable market prices rather than the quoted market prices mentioned in first level of the regarding assets or liabilities.
- Level 3: Financial assets and financial liabilities are valued by inputs where there is no observable market data of the fair value of the regarding assets and liabilities

The fair value classification of financial assets and liabilities measured at fair value is as follows:

Financial assets	Fair value levels as of 31 December 2020		
	Level 1 TL	Level 2 TL	Level 3 TL
Special issue government bonds	-	-	-
